

## Application Data Manager

For our client, a driven innovator and international player in the automotive/chemical sector, located south of Antwerp, we are looking for a Application Data Manager.

### Why is this job something for you?

- You get a varied and challenging role within a dynamic company where there are still many achievements and promising projects on the horizon.
- You will be welcomed in an enthusiastic team where you can count on solid training and support, but also sufficient scope to fully develop and apply your commercial, organizational and technical skills.
- In addition you can be assured of a motivational remuneration package supplemented with various extra-legal benefits.

### What are you going to do ?

- Improve the data processes and systems (application database, ERP and PIM) to drive efficiency within the team together with product team and external consultants/companies
- Optimize our product recommendation for the different segments taking into account product life cycle and quality/performance tiering of the different products
- Ensure state of the art product data quality and transforming it to added value to our customers
- Make the data configurable to the customers required format and to the different digital industry catalogue formats.
- Analyze and evaluate competitor product data and identify optimum product data set for the products to stand out from the rest.  
Create new products in an efficient and timely manner linked to the targeted launch date.  
Support product & marketing team with analysis and preparing data summaries

### Who are we looking for ?

- You possess a Bachelor Degree (preferably Computer science,...) or equal by experience.
- Fluent in English, additional languages are a plus.
- +5Y experience in data management, preferably in Automotive and/or Chemical sector.
- You work proactive and you have excellent computer skills, (MS Excel, Access, ERP, CMS,) essential to have experience in application data base management (ideally Xchecker, PIM, Tecdoc, Olyslager, MAM,...)
- Ability to priorities workloads and manage people to ensure in time delivery.
- Demonstrated ability to meet or beat assigned targets and deadlines consistently.
