

Graphic Designer

For our client, a driven innovator and international player in the automotive/chemical sector, located south of Antwerp, we are looking for a Graphic Designer.

Why is this job something for you?

- You get a varied and challenging role within a dynamic company where there are still many achievements and promising projects on the horizon.
- You will be welcomed in an enthusiastic team where you can count on solid training and support, but also sufficient scope to fully develop and apply your commercial, organizational and technical skills.
- In addition you can be assured of a motivational remuneration package supplemented with various extra-legal benefits.

What are you going to do ?

As Cross-Media Studio Designer you will find your way in both an online and offline environment to optimally support the international clients, and to further expand the leading and innovative position in the market. You will help to devise and develop strategic projects that require cross-media insight and a creative spirit. Your motivated and flexible attitude ensures that your deadlines are met and that you commit yourself to delivering a high-quality end product on time.

- You translate creative graphic concepts into workable, functional designs within the guidelines of our customer's brands, both in an offline and online environment.
- You have an excellent knowledge of different programs such as Adobe Indesign, Photoshop and Illustrator which ensures that you have an efficient solution for different challenges.
- You translate the content for the websites into graphical, user-friendly and visually attractive applications: landing pages, banner, animated gifs and other graphical elements of the websites.
- You design and produce brochures, advertisements, catalogues and infographics and prepare documents for printing.
- You think along and proactively come up with proposals to manage your own workload and increase the efficiency of processes.
- You guard the brand identity, ensure consistency in all the effects and maintain an overview of all the graphical elements.

Who are we looking for ?

- You have at least 3 years of experience as a DTP or graphic designer/web designer.
- You know the current graphic programs better than your own pocket, and you always want to master the latest versions as quickly as possible. Knowledge and/or experience with Adobe Creative Cloud and Microsoft Office are important assets.

- Knowledge of photography, video recording, html and CSS, and social media publishing are a plus.
- You live for accuracy, passion and an eye for detail.
- You can work independently, think in solutions and create added value with your designs, creativity is in your nature.
- You are fluent in English
