

## **QT Front-End Developer (Prague or Brno)**

For our client, an internationally leading construction software company with offices in Belgium (Hasselt) and Czech Republic (Prague, Brno) among others, we are looking for a QT Front-End Developer. Our client provides calculation and drawing software for engineers, constructors, CAD & BIM specialists and construction companies.

### **Why is this job something for you?**

- You will work in an international, innovative and multicultural environment where there is a lot of dynamism, enthusiasm and open communication.
- Moreover, you are assured of a motivating salary package supplemented with various additional legal benefits, including a company car and the possibility of working from home.

### **What are you going to do ?**

- As an experienced QT front-end developer, you play a pivotal role in our clients strategic program through which they redesign and redevelop the UX/UI of the core product, their construction software.
- You are part of a self-sufficient and dedicated project team consisting of a product and project manager, UX/UI designers, front-end and back-end developers, lead architect, etc.
- You collaborate closely, side-by-side, with the lead architect and an additional front-end developer. You contribute to extend the UI Framework and CAD/CAE GUI components.

### **Who are we looking for ?**

- You have a master degree computer science or engineering and experience as software engineer in business application development on Windows desktop (back-end and front-end development).
- You are familiar with front-end frameworks.
- You have Hands-on experience in front-end development using QT technologies (QT, QWT, etc.) and in back-end development using C++.
- You have outstanding analytical, design and problem-solving skills.
- You have great communication skills with an ability to talk to other software engineers, architect as well as UX/UI designers
- You are fluent in spoken and written Czech/Slovak and English.
- You can work from the offices in Prague or Brno.

### **Apply ?**
