DEMAND PLANNER - Antwerp

For our client, a driven innovator and international player in the automotive/chemical sector, located in the south of Antwerp, we are looking for a driven Demand Planner.

Why is this job something for you?

- You will be welcomed in an enthusiastic team where you can count on solid training and support, but also sufficient scope to fully develop and apply your commercial, organizational and technical skills.
- In addition you can be assured of a motivational remuneration package supplemented with various extra-legal benefits.

What are you going to do ?

The Demand Planner acts as the demand forecasting process owner. He/she will be responsible for optimizing the demand forecasting process and will within the team be the first point of contact with Sales and Sales Support. Better forecasting will allow our supply chain to face a more streamlined operations, managing shortages better, less useless inventory and providing better service towards sales.
The main responsibilities are in the following domains:

- Collect data on unconstrained demand
- Leverage appropriate forecast, done at the right aggregation level (i.e. top-down and bottom-up) and time horizon (short vs. long-term)
- Set up a clear monthly structure to generate a forecast baseline and set up a review process
- Evaluate and track forecast quality (accuracy and bias) and discuss/gather inputs from stakeholders (Sales)
- Implement the use of statistical forecast and add value by enriching the forecast with extra insights in order to build a consensus forecast for a large part of the portfolio.
- Monitor large intermittent order consumption on a regular basis in order to prevent that stock availability is not being jeopardized

Who are we looking for ?

- You have a Bachelor or Master's degree in TEW/Commercial Engineering/Commercial Sciences or are equivalent through experience
- You preferably have a first experience in a Supply Chain position, Demand planning or S&OP role
- You can work smoothly with MS Excel and are skilled with data analysis in ERP systems
- Fluent in English, written and spoken. Another language (Dutch, French,…) is a plus.
- Passion for analysis and working with data

- You are an ownership taker, flexible and collaborative with a customer oriented mindset
- You can pro-actively work things out independently.

Apply ?

This can easily be done by email on info@clearskyselection.be
