

Local Quality Assurance Expert - Willebroek

For our client, a growing distribution/machinery company located in Willebroek, we are looking for a Local Quality Assurance Expert.

The company has 5 sites across Europe from where they operate with more than 200 colleagues to serve customers over the globe.

Why is this job something for you?

- You will be given a varied and responsible position within an open company atmosphere where there is a lot of room for personal growth.
- You will join a stable, fast-growing company that is supported by a large multinational.
- You can count on an interesting remuneration package supplemented with the necessary extra-legal benefits.

What are you going to do ?

In this role you will implement and maintain a new ISO 9001:2015 compliant Quality management system.

You will support the Quality & Sustainability Senior Manager, located in Italy, in QMS implementation and related change strategy:

- Being accountable for the local management of the QMS for Willebroek warehouse.
- Capturing information & feedback from local peers.
- Escalating potential issues to help resolve them.
- Answer to questions and concerns from local peers about QMS system, QMS processes and QMS IT Platform.
- Act as local QMS Ambassador, promoting, coaching, and supporting the transition.
- Performing process mapping for Willebroek warehouse operational processes, integrating it in the QMS IT Platform.
- Working on the update/definition of related QMS procedures common to all warehouses in Europe.
- Working on the local update of existing working instructions and on operational processes control considering also concurrent SAP ERP roll-out.
- Supporting the implementation of QMS IT platform.
- Collaborating in internal / external local audit activities planning and updates.
- Conducting the audits in Willebroek central warehouse.
- keeping the progress of the audits, monitoring the closure of corrective actions and their effectiveness.
- Participating to the local performance monitoring, measurement, analysis, and evaluation.
- Collaborating in the management review inputs collection.
- Improving continuously the suitability, adequacy and effectiveness of the QMS.

Who are we looking for ?

- You have a very good understanding and practical experience with ISO 9001:2015. Experience with other standards such as ISO 14001, ISO 45001, ISO 50001 is a plus.
- A bachelor or master degree in Management or Logistics Engineering is a plus.
- 5+ years of experience in structured logistics or industrial organizations driving Quality Management Systems and Certifications.
- Training and facilitating skills, good communication skills with the ability to encourage and influence others, ability to facilitate effective discussions or workshops.
- Able to flag issues with the aim to make problems visible to solve them.
- Self-motivated character, able to find ways to accomplish autonomously assigned goals.
- Fluent Flemish and English are required.
