

ICT Engineer - Hasselt

For our client, an internationally leading construction software company with his headoffice in Belgium (Hasselt) we are looking for a ICT Engineer.

Why is this job something for you?

- You will work in an international, innovative and multicultural environment where there is a lot of dynamism, enthusiasm and open communication.
- Moreover, you are assured of a motivating salary package supplemented with various additional legal benefits, including a company car and the possibility of working from home a few days a week.

What are you going to do ?

You will be working within the ICT team, providing infrastructure/services/applications support and solving problems for our employees working around Western Europe.

Your main responsibilities are:

- the purchase, installation, asset management and maintenance of the ICT infrastructure and ICT related user management to provide optimum support for the processes within SCIA.
- evaluating improvements, testing new hard- and software tools.
- the installation, maintenance and repair of ICT related assets owned by SCIA.
- the design, maintenance and functionality of the telephone system and supporting tools, and the creation and analysis of related reports
- active monitoring of the network infrastructure in offices, server rooms and data centers.
- the backups of servers and backup-procedures.
- continuously investigation of better security.
- user training on the SCIA specific tools.
- assisting with company events both internal and external. This only regarding technical ICT and audio/video related topics.
- the maintenance of domain names and corresponding DNS records.
- the creation of documentation (procedures, guides, ...)

Who are we looking for ?

- Solid knowledge of networking and modern ICT infrastructure.
- Security-first approach
- Office 365/Microsoft 365 management skills are a must
- Microsoft Azure knowledge is a plus, Cloud-minded
- Documentation, reporting and communication skills
- Strong communicator, ability to promote ICT within the organization
- Problem-solving and analytical mindset
- Flexible and reliable
- Besides Dutch you speak fluent English
