Why is this job something for you?

- You will find yourself in a challenging Supply Chain role within a healthy international company in full expansion.
- Within the company there are on the long term many career opportunities for people who show potential.
- In addition, you can count on an interesting salary package.

What are you going to do ?

the Supply Chain Manager will oversee all our logistics operations in our region, including inbound, outbound, warehousing, and trucking transport for the European region.

- Manage and supervise logistics, third party warehousing and associating services, transport.
- Define the supply chain strategy planning (short and long-term plans) for our fast-growing lithium operations in Europe.
- Engage and lead a team of 1-2 logistics coordinators.
- Maintain metrics and analyse data to assess performance and implement improvements.
- Sourcing and third-party contractors (warehouse, transport, other logistic services). Define of operational standards and procedures.
- Evaluate and control budgets and expenditures.
- Administrate future third-party toll processing operation contracts.
- Ensure logistic related (registrations, license, and regulations) compliance and regulatory guidelines followed, advise inside and outside the organization on import and export restrictions, local customs regulations, laws and procedures, tariff systems, insurance requirements, quotas, or other customs-related matters;

Who are we looking for ?

- Master degree with a business, chemical, marketing or logistics/supply chain background. Or equivalent by experience.
- At least 5 years international logistics experience in at least two of below fields is essentials; experience in more than two is beneficial :
 - Inventory control in handling and warehousing.
 - Imports and exports full process experience.
 - Ability to cargo regulation (Import, Export, Storage and Transport) and required permits and documentation knowledge.
 - Regular contact with Customs, Customs brokers having the possibility to get advice from those offices when needed.
 - Team management and supervision.
 - Tolling/Manufacturing chemical management experience.
- Fluent in English and Dutch. Spanish is a plus but not required.
- Willingness to travel both national and international.
- Able to work efficiently with MS Office in general and Excel/Power point in particular.
- International work and/or study experience abroad is a plus.
- Experience in ERP, especially Microsoft Dynamics AS and SAP is a plus.
